## REPRESENTATIVE GENE NEWMAN

District 61  
Rankin County

Mayor Jake Windham  
City of Pearl  
P. O. Box 5948  
Pearl, MS 39288

**Re: Letter of Support for Pearl/Richland Intermodal Connector Phase II  
2022 USDOT – RAISE Planning Application**

Dear Mayor Windham:

Thank you for your continued leadership in partnership with the City of Richland, through the Pearl Richland Intermodal Connector Commission, to actively pursue completion of the Pearl Richland Intermodal Connector Project. Mississippi's 2017 Statewide Freight Plan identified this project as a Critical Urban Freight Corridor because of the connectivity of public roads in urbanized areas to a Primary Highway Freight System, the Interstate and intermodal freight facilities. Specifically, this project will support intermodal rail/truck transfers for safe and efficient freight movement on the I-20/KCS and US 49/CN corridors. Further, the project will ease traffic congestion by rerouting freight traffic to measurably improve public safety for motorists and first responders; and create an efficient connection between two (2) Low Income Community Opportunity Zones; 1) Pearl (#2812102701) and 2) Richland (#281210220401).

It was absolutely critical that you pushed to secure the \$16.18M necessary to get Phase I under construction with completion anticipated in 2022. Phase I will widen existing South Pearson Road to 5-lanes from north of Richland Creek to SR 468 including connecting roads and construct an overpass bridge over the Kansas City Southern Railway to eliminate a potentially dangerous rail crossing.

Phase II will complete the Intermodal Connector's remaining 1.90 miles by widening existing Pearson Road to 4-lane and also constructing a new 4-lane road to connect with US 49. I strongly support your \$5M 2022 RAISE Planning application which will allow work to immediately proceed with design to incorporate new environmental sustainability measures and innovative technologies and other practices to drive safety, equity, climate and resilience. This grant will also allow additional public engagement in conjunction with updating and finalizing NEPA documents. This planning grant is vital to continue the project's strong momentum toward construction.

Sincerely,
